Technical characteristics of dryer plant for fruit and vegetables

1. Continual tunnel dryer manufactured by „BABCOCK“

Production year: 1988.

Dimensions of the dryer

- width 4300mm
- height 4000/3200/2400mm
- length 40.000 mm

Fresh air supply through recuperator.

Transport of raw materials is performed by way of three conveyor wire belts 3500mm wide, with operating width 3300mm

Dryer capacity: 2-4 t/h

2. Continual tunnel dryer manufactured by “CER”-ČAČAK

Production year: 1992

Dimensions of the dryer

- width 3850mm
- height 4400mm
- length 25.000mm

Transport of raw materials is performed by way of three conveyor wire belts 2600mm wide.

Dryer capacity: 2-4 t/h
